

Paper Shavings Animal Bedding Information Sheet

- Made from uncirculated directory paper straight from the manufacturer
- Chopped NOT Shredded
- Processed through vacuum extraction system to remove almost all dust
- 2 times more absorbent than straw and 4-6 times more absorbent than wood shavings
- Actually contains organic matter that is great for composting—decomposes rapidly—no build up of heavy metals over time like other types of bedding
- Non-toxic (vegetable oil based inks)—no phenols like that in wood bedding
- Great for allergies—virtually dust free, weed free, pollen free, does not support mold or fungal spores
- 1 bag weighs approximately 32 lbs and spreads to 12 cubic feet—that is equal to 1.5-2 bags of wood shavings
